AMENDMENTS TO THE CLAIMS

This listing of claims will replace all prior versions, and listings, of claims in the application:

Listing of Claims:

1-17 (Cancelled)

18. (Previously Presented) A sheet which is specifically adapted to clean and/or refresh fabrics in a hot air apparatus, the sheet comprising:

- (a) a substrate comprising a surface area of at least about 360 cm<sup>2</sup> ;
- (b) from about 10 grams to about 30 grams of a liquid cleaning/refreshment composition comprising at least about 80% by weight, of water releasably absorbed in the substrate;
- (c) from about 2 grams to about 20 grams of a fabric shrinkage reducing composition comprising a fabric shrinkage reducing agent selected from the group consisting of: ~~ethylene glycol~~, all isomers of ~~propanediol~~, ~~butanediol~~, pentanediol, hexanediol and mixtures thereof releasably absorbed in the substrate.

19. (Previously Presented) The sheet according to claim 18, further comprising a permeable fibrous coversheet which encases the outer surfaces of the core element.

20. (Previously Presented) The sheet according to claim 18, wherein the cleaning/refreshment composition comprises up to about 2%, by weight, of a nonionic surfactant.

21. (Previously Presented) The sheet according to claim 19, wherein the fibrous coversheet is vapor permeable to the cleaning/refreshment composition and the fabric shrinkage reducing composition; wherein the coversheet has a minimum thickness of at least about 8 mils.

22. (Previously Presented) The sheet according to claim 21, wherein the coversheet is bonded to the substrate in discrete areas.
